Voice Assistant Connects Industry

MAIN FEATURES

VOCAL INPUT/OUTPUT

The operations are easily managed by user through voice commands.

PRODUCTIVITY IMPROVEMENT

The application converts in real time the commands into actions.

QUALITY IMPROVEMENT

The user can perform other activities simultaneously with maximum freedom of movement.

HAND FREE OPERATIONS

The process is immediately confirmed and verified by voice, avoiding errors and further manual checks.

HIGH INTEGRABILITY

A solution suitable for new or existing plant for different industrial sectors.

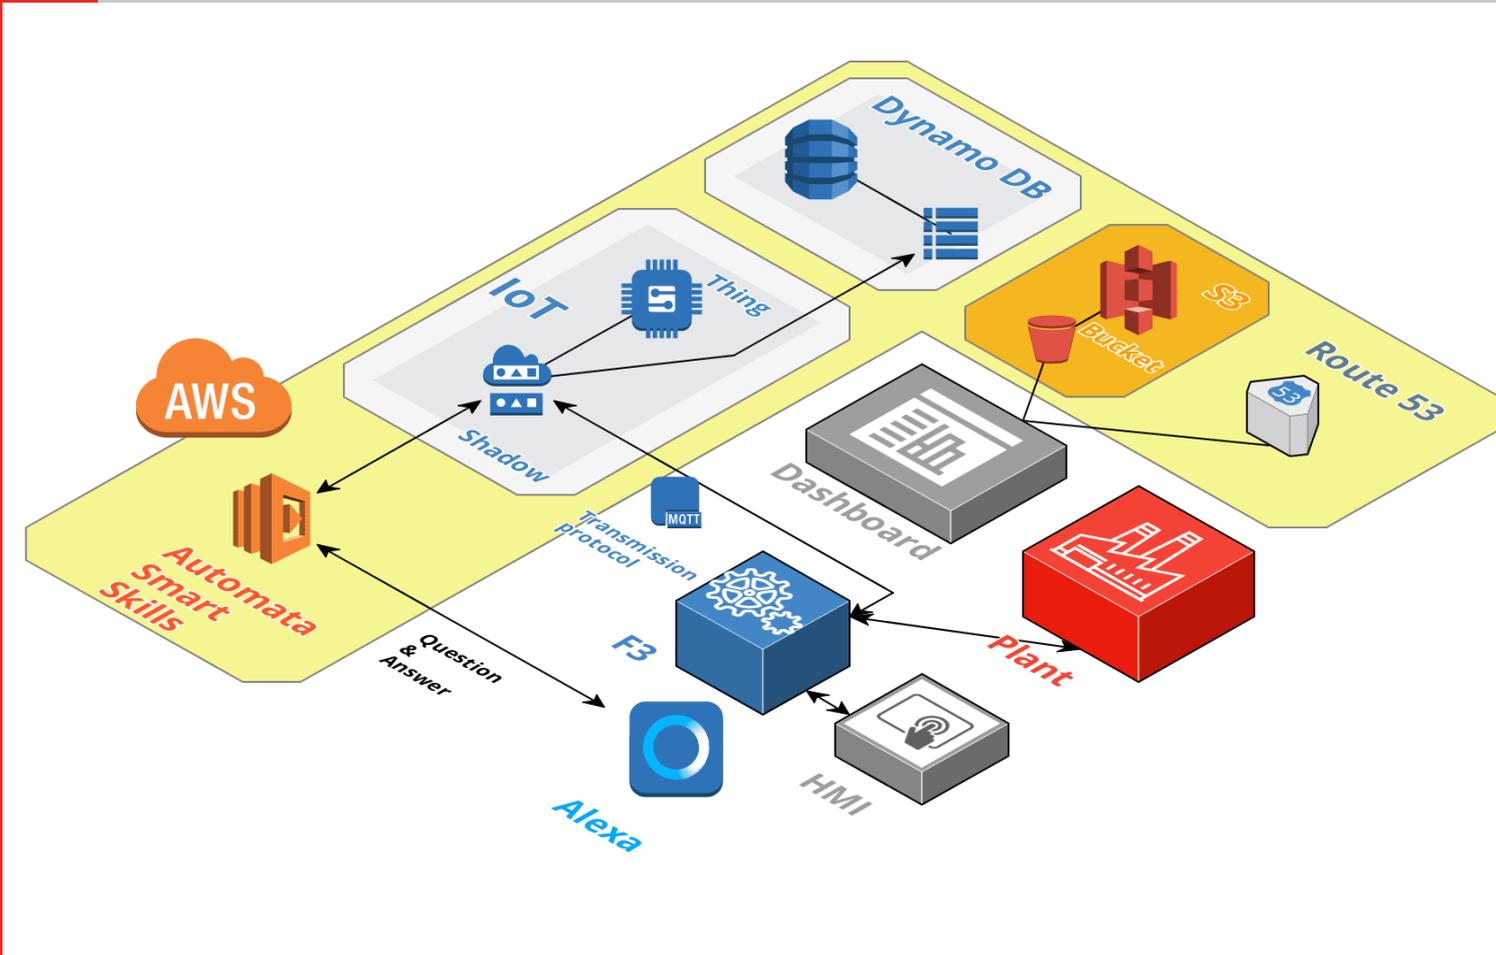

Canon Automata presents the Voice Assistance, a specific application for the industrial market.

A system based on Artificial Intelligence and Machine Learning able to interact in the most natural way possible through voice commands.

The special algorithms identify the voice of the user and the human dialogues of the people transforming them into machine commands or transmitting information via voice messages.

Through these platforms, operators interact with devices and machines to obtain data, manage operations or perform specific actions, thus improving the timing of production processes, increasing operations and safety.

CLOUD ARCHITECTURE

PRODUCTS

Components for industrial automation.

- ✔ PAC - PROGRAMMABLE AUTOMATION CONTROLLER
- ✔ I/O MODULES
- ✔ AUTOMATION SOFTWARE
- ✔ FIELDBUS & INDUSTRIAL ETHERNET
- ✔ HMI - HUMAN MACHINE INTERFACE
- ✔ DRIVES

APPLICATIONS

Hardware and software solutions for specific user applications.

- ✔ REMOTE MONITORING & ASSISTANCE
- ✔ ENVIRONMENTAL MONITORING
- ✔ PREVENTIVE MAINTENANCE
- ✔ MACHINE CONTROL & PRODUCTION
- ✔ MOTION & ROBOTICS
- ✔ ENERGY EFFICIENCY

ENGINEERING

Services for engineering projects.

35 years of experience in the automotive, energy, oil & gas and water treatment sectors enable Cannon Automata to present itself as complete and perfect partner for the development of industrial engineering and process projects. Systems are characterized by their high performance, thanks to an approach that is fully oriented to achieve tailored solutions to specific needs.

For the best results in terms of quality and customer satisfaction, Cannon-Automata follows an operative scheme
